Kudos Ultimate Curved Walk-in Showers

CURVED WALK-IN SHOWERS

Kudos Walk In Showers come complete with glass panels, shower tray and water system. At the heart of the water system is the Aquaspa Quartz Processor, controlled by a touch panel enabling the shower to be turned on & off from both outside and inside. However the water being fed from either floor or ceiling.

Easy fit. Designed for ease of installation the enclosure is fitted without the use of silicone sealant.

Showering area The shower head is sited on the edge of the glass leaving the whole of the corner area for showering and prevents water splash escaping out of the shower.

Standard Quartz versions for use with high pressure or combination water systems.

Pumped Quartz versions for use with low pressure gravity systems.

* Without a Quartz Valve/Processor/Kit. These showers are also available without the Quartz Valve/Processor/Kit.

How to order your bathroom furniture

My Order

CSV643/PR Pear carcass for basin unit	133.34
SVPACK/PAD Padova fascia & doors	162.13
CSB163/PR Pear carcass for single unit	90.70
HDPACK/PAD Padova door	70.76
SHD39 x3 Padova handles	20.04
CT153/BKQ x2 Black Quartz worktops	127.24
Total cost including VAT	£604.21

Unit with the drawer and door front.

You can choose from a selection of door and drawer finishes. Handles for doors and drawers need to be chosen separately.

Drawer and door finish code.

Carcass is ordered separately. You can use any finish carcass with any door. For the product code, substitute the abbreviation 'fin' for the finish code* of the carcass you have selected.

White (WH)*
Oak (OAK)*
Walnut (WAL)*
Pear (PR)*

The carcass is supplied without a plinth. Plinths are ordered separately. Carcasses are either 300 or 200 deep. The 200 deep carcass when used with a 300 deep worktop will provide a void at the back for supply or waste pipes.

The drawer and door front is ordered separately.

AQUAESTIL

All Aquastil baths are formed from the highest grade acrylic and are strengthened with glass reinforced polyester over the whole underside of the bath and have fully encapsulated baseboards for extra strength.

All baths come complete with an adjustable leg set.

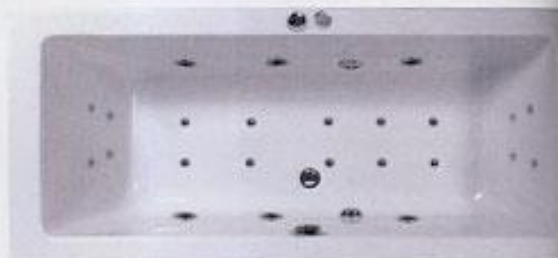

TAP HOLES

All baths are supplied with tap holes so your installer can fit almost any type of bath fittings by drilling tapholes where 'you want them'

For the ultimate luxury Aquastil baths can be fitted with Orbit Whirlpools in the UK factory. There is a huge selection to choose from, ask your dealer for details.

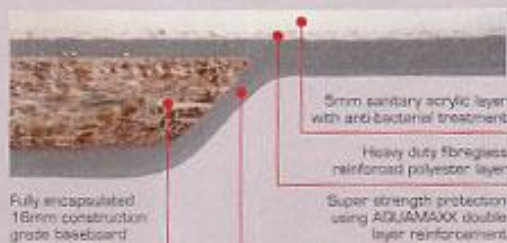

Delivery for your whirlpool will be about two weeks from order.

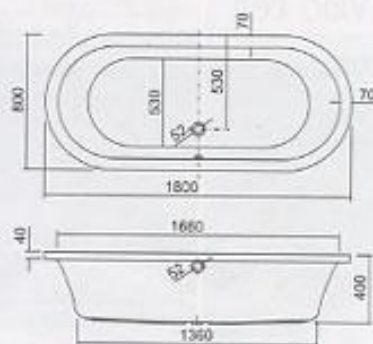

AQUAMAXX

The AQUAMAXX hi-tech super reinforcement is applied to a selection of Aquastil acrylic baths that provides a 'cast iron' like strength and extra thermal insulation - perfect for a long warm soak.

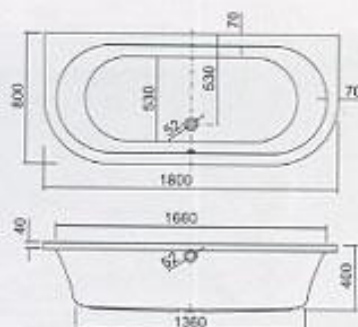

In addition all AQUAMAXX baths use anti-bacterial treated acrylic.
